

Guard Card **TRAINING**

WISCONSIN

Private security is a growth industry. Employers must ensure staff have the best training within available budgets. Many companies have highly trained and experienced individuals but either lack the teaching experience or materials to be able to impart the knowledge. For situations like these, Security Training Center,[®] LLC. offers pre-packaged materials. Our team is comprised exclusively of educational professionals, many of whom hold advanced degrees in Adult Education and Training.

Established in 2003, Security Training Center,[®] LLC. is a professional security guard training company. Our purpose is to educate security personnel and organizations in the latest protocols and techniques to keep staff, property and other valuables safe. A proactive approach to security awareness prevents many problems from ever occurring, reducing risk to staff and liability. We teach early identification of potential problems and how to defuse conflicts before reaching crisis. Our staff and advisory board have decades of experience in military, law enforcement, executive protection, private security, defensive weapons and martial arts.

We offer both **instructor-led** and **online training** solutions.

Our internationally-recognized training programs are used on five (5) continents.

Our STC Guard Card Training® program complies with all requirements as mandated by the State of Wisconsin, Department of Safety and Professional Services (DSPS).

Developing cogent training materials takes time and experience. Add the complications of navigating state laws, regulations, administrative codes, training requirements, and minimum course times and it can be an overwhelming endeavor. Once course development is complete, there are still the onerous tasks of submitting the material, getting it reviewed and eventually approved by state regulatory agencies. All of these tasks must be completed before the first student can be trained, which can delay opening, and thus revenue generation, by months.

STC Guard Card Training® has already done all of the heavily lifting. Our world-class training materials have already been submitted to, reviewed by, and approved by the required state agencies. They are ready to go “out of the box.”

Our turn-key, instructor-led training package includes:

- ✓ Professionally printed and bound training manuals.
- ✓ Knowledge Checks.
- ✓ Instructor PowerPoint Presentations for every lesson.
- ✓ Final Examinations.
- ✓ Student Handouts.
- ✓ Continuing education podcasts.

16-hours, Unarmed Skills Training Course for Security Guards: Wisconsin

242 pages. This training manual is intended for use as part of an instructor-led course in accordance with the Wisconsin Administrative Code. These manuals may be used exclusively by DSPS-licensed private security guard trainers in approved and licensed facilities.

Every lesson includes Knowledge Checks and References for further study.

This manual is divided into thirteen (13) lessons.
